DISCOVER THE TIMELESS ELEGANCE OF NATURAL SLATE

Introducing MPG Stone's iconic collection, featuring the legendary Natural Slate. Born from the family of metamorphic rock, this stone is historically celebrated for its deep, raven appearance—a look that brings gravitas and timeless beauty to any space.

Our natural slate is renowned for its exceptional resistance to all weather conditions, ensuring lasting beauty in any climate. Unlike artificial alternatives, slate is a low-maintenance solution that retains its color and integrity for decades. Each piece is truly unique, meticulously created through traditional hand-splitting techniques, resulting in natural cleft surfaces perfect for robust garden paths, patio paving, and any demanding outdoor installation.

Explore the full range of our collection, where you'll find everything from classic Black to warm Copper Panel slate. Whether you prefer monochrome tones for a sleek, modern look or need vibrant colors to complement your landscaping, MPG Stone offers a wide spectrum of options. We pride ourselves on offering customized size options to perfectly meet the unique requirements of your indoor and outdoor projects. Invest in the authenticity and durability that only natural stone can provide.

Brazilian Black

Brazilian Black Slate is not only visually stunning but also incredibly practical. It boasts remarkable durability and resistance to wear, moisture, and extreme temperatures, making it an ideal choice for a diverse range of applications. Whether you envision a striking indoor floor, a feature wall, an elegant countertop, or a robust outdoor patio, its inherent strength ensures longevity and minimal maintenance. Each piece is skillfully hand-split, revealing a naturally subtle texture that enhances its organic appeal and provides excellent slip resistance
